ANNEX 3: Bibliography

There are a wide range of resources available on monitoring and evaluation and evaluation work specifically related to the business enabling environment. This field of work is ever evolving with new material and guidance being developed and produced on a regular basis. Therefore rather than provide a long list of specific documents we have provided key electronic based sources of guidance which cover the primary network active in the evaluation of BEE interventions.

The DAC network represents the evaluation experiences of some 30 national and international development partners and organisations including IFC, GTZ and DFID. Access through their main evaluation website www.oecd.org/dac/evaluation that connects to the DAC evaluation resource centre DEReC which is designed as a one-stop-shop for use key evaluation publications including:

It provides a forum, in which member agencies can exchange information about their programmes, and the lessons learned through those programmes. Each of their regional offices have websites that illustrate their BEE work locally. For example see [www.sme-gtz.org.vn](http://www.sme-gtz.org.vn) for Vietnam and [www.gtz.de/en/weltweit/asien-pazifik/vietnam/4787.htm](http://www.gtz.de/en/weltweit/asien-pazifik/vietnam/4787.htm) for Thailand.

BEE Toolkits
Business Licensing Reform Toolkit Licenses provide the permissions businesses need to perform their core activities. When combined with registrations, permits, and inspections, entrepreneurs face a confusing web of red tape. "Business Licensing Reform: A Toolkit for Development Practitioners" gives project managers the tools for reforming business licensing regimes at the national level.

Business Membership Organizations Toolkit Entrepreneurs need reliable infrastructure, efficient regulations, and a range of financial and business services for success. This toolkit provides project managers with relevant case studies and step-by-step information on how to design, implement, and evaluate projects that build capacity in business membership organizations.

Collateral Toolkit The "Reforming Collateral Laws to Expand Access to Finance" toolkit gives policymakers and stakeholders the answers to key questions in tackling reform: Why is collateral important? What should reform look like? How can reformers make it happen? http://rru.worldbank.org/Toolkits/Collateral/

Corporate Governance Toolkit Corporate governance codes have effects at both the micro and macro levels; they serve as benchmarks for monitoring and implementing policy and practice within companies and restore investor confidence in markets. "Corporate Governance: Developing Corporate Governance Codes of Best Practice" provides practical guidance on creating and revising codes to fit diverse and dynamic corporate environments. http://rru.worldbank.org/Toolkits/CorporateGovernance/

Customs Reform Toolkit Customs reform can enhance countries’ competitiveness, particularly in the developing world where red tape, rampant fraud, and corruption within customs agencies keep trade costs high. "Reforming the Regulatory Procedures for Import and Export: Guide for Practitioners" provides detailed information on best clearance processes and best export and duty deferral regimes.

**Dispute Resolution Toolkit** The "Alternative Dispute Resolution Manual" defines the processes, and provides a framework and guidelines for program designers and managers to set up efficient cooperative approaches to dispute resolution. [http://rru.worldbank.org/Toolkits/AlternativeDisputeResolution/](http://rru.worldbank.org/Toolkits/AlternativeDisputeResolution/)

**Subnational Regulation Toolkit** "Sub national Business Regulation: Guidelines for Reforms" provides practical advice on simplifying business regulations at the municipal level, since most contact between firms and government takes place at the local or regional level. Simplification involves not only business process change but also "cultural" change. [http://rru.worldbank.org/Toolkits/RegulatoryReform/](http://rru.worldbank.org/Toolkits/RegulatoryReform/)

**Tax Administrations Toolkit** Many tax administrations in developing countries are plagued by burdensome reporting and inspection requirements, costly and duplicative
structures, and other problems. "Tax Administrations and Small and Medium Enterprises in Developing Countries" offers tools to assess the developmental stage of a country’s tax administration system and tips for implementing key reforms.
